Aquablitz® spa body programme

The natural spa treatment
for a Firmer, Slender,
Younger Body without the
need of Liposuction.

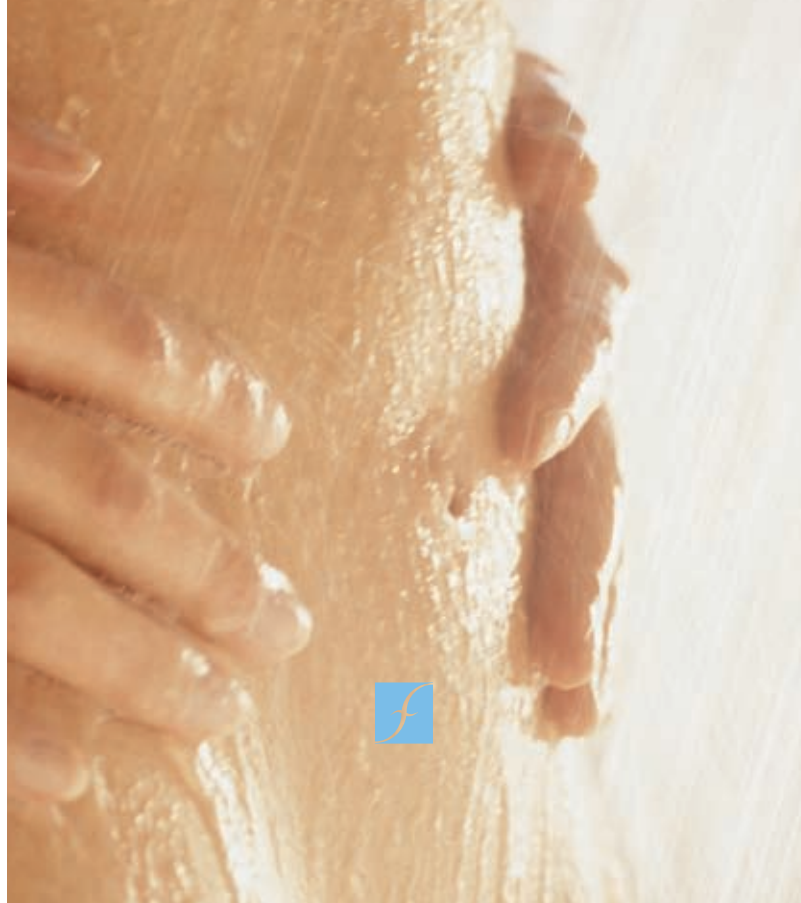

Sanitas Per Aqua (Spa) is Latin for healing with mineral water. The Aquablitz Body treatment is the scientific marrying of machine technology and holistic spa body treatments. The constant flow of mineral water enhances the in-depth treatment.

Aquablitz Body Treatment is especially designed to give a two dimensional and instant result. Firstly the nodules of cellulite are pulsed with warm mineral water to produce mild erythema, so stimulating oxygenation. Secondly hydro drainage acts on the adipose tissue to break down fatty cells and drain toxic waste by lymph drainage, leaving the body clear of cellulite and unwanted toxic waste. The skin will be toned, look firmer, smoother and un-dimpled.

To maximise the Aquablitz Body treatment use Spa Find Sculpted Silhouette 'home care' regime every morning.

Mineral skin nutrition

For many of us it is increasingly difficult to keep our mineral and vitamin levels at the correct balance due to our stressful lifestyles. Did you know that almost every skin condition that we may suffer from is partly due to a mineral or vitamin imbalance within our body? By using Spa Find products the mineral levels within the body can once again begin to normalise and bring our inner health back into balance.
