If clients are new to using the Spa Find range it is also suggested that they begin with the extracts to give skin a lift and help increase the regular Spa Find products' effectiveness. Alternatively the extracts can be used to help control seasonal/hormonal changes, sudden breakouts or congested skin.

Spa Find are also launching salon sizes of the super-intensive extracts for spas and salons to use in the Spa Find treatments.

Kate Czik, Founder of Spa Find... comments on why they developed the new range of extracts:

"We are constantly seeking innovative ways to improve our product ranges enabling therapists to deliver the best treatments possible to their clients. The idea of the super-intensive extracts is to further enhance clients' use of other Spa Find products and give the immediate results that we all crave!"
