Sculpted Silhouette Inchwrap Body Treatment

Spa Find Sculpted Silhouette Inchwrap Treatment is a powerful, detoxifying body wrap that works to disperse cellulite and toxins, easing the inches away and leaving you with the perfect body contour.

Spa Find Sculpted Silhouette Inchwrap treatment is the first wrap to use products combining plant extracts such as Ivy, Ginseng and Horsetail – which increase the toning and firming effect, Iso-Slim Complex – a combination of natural slimming and fat-burning agents Caffeine, Carnitine and Spirulina, blended with Soy Isoflavones to tighten, lift and visibly reduce the appearance of cellulite, together with the unique concentration of minerals from the Dead Sea such as Potassium and Sodium that work together to help alleviate fluid retention and detoxify the body.

The majority of women who go to salons for the Spa Find Sculpted Silhouette treatment suffer with cellulite and unattractive bulges around the hips and thighs. Many are professional people in stressful jobs and often comment on how they have experienced a feeling of wellbeing and felt stress-free long after the treatment is over.

The reason for this is that the Spa Find Sculpted Silhouette treatment detoxifies the body, stimulating the activation of the lymph circulation, which helps maintain the immune system of the body. When we are under stress the body releases stress chemicals; the minerals contained in the Inchwrap products help to neutralise these chemicals and disperse the toxins from the body. If these are not removed regularly they can cause stagnation of vital organs and tissues and cause great anxiety and stress. The Spa Find Sculpted Silhouette Inchwrap products should be used regularly to obtain the full benefit.

Spa Find offers non-comedogenic, skin-friendly formulas, blending natural de-ionised water with pure Dead Sea minerals (Harmonised Water™) and organic plant extracts. Products contain allergen-free fragrances and no parabens, genetically modified organisms or animal ingredients.
