We launched the Spa Find range of spa blends and therapies in 2006 with the vision of using pure, earth-given ingredients that work naturally with our bodies, but still give immediate noticeable results.

Spa Find products have a Harmonised Water™ base (as opposed to the normal purified water base that most skincare products use) which goes through a de-ionising process to remove absolutely all the impurities before we then add powerful Dead Sea Minerals. This active mineral water base works to rebalance the body's mineral levels and water balance, keeping skin beautifully hydrated, plumped and glowing.

Blended with the Harmonised Water™ are exquisite plant extracts that work to enhance the results you get from using Spa Find products.

It is our policy to use safe, natural ingredient alternatives where possible, and we continue to research new and innovative natural formulations. Our products contain allergen-free fragrance and **no** parabens, genetically modified organisms or animal ingredients. We truly believe it is essential to our health and beauty to regularly escape from our stressful lifestyles and find a more primitive, peaceful and natural state of being.

Our top skincare tip is to not worry so much (easier said than done!), drink lots of water (can never be said too many times!) and put energy into enjoying the small things in life – a long soak in a warm bath, fresh, sunny spring mornings, spending time with loved ones... enjoy!
